Kevin (Ning) Chen

Lead .NET Engineer · C# · Azure · SQL Server

About me

Lead .NET engineer with 15 years in C# and .NET, most of it on logistics systems that cannot go down. Currently responsible for a SQL Server estate carrying 2M+ transactions a day and an event-driven platform handling 500K+ events daily. Strongest on backend architecture, distributed messaging and database performance. Based in Sydney, NZ citizen with full Australian work rights.

NZ citizen, SCV 444, full Australian work rights, no sponsorship required. Sydney based, open to hybrid or on-site, four weeks notice. 15 years in high-volume, high-availability transaction and logistics systems. Technical leadership: architecture ownership, mentoring, stakeholder communication. Fluent in English and Mandarin Chinese.

Skills

- Data & Performance

Experience

Lead .NET Engineer

Urgent Courier Ltd, NZ top-3 logistics provider

2010 – Present (15 years)

- Progressed from .NET Developer to Senior Developer to Lead Engineer; now own backend architecture across the platform - Tune and operate SQL Server clusters carrying 2M+ transactions a day; indexing strategy, query rewrites and execution plan analysis reduced average query time by 40% - Architected an event-driven platform on Azure Service Bus processing 500K+ logistics events daily at 99.95% availability - Led migration of a .NET Framework monolith to .NET 8 microservices, cutting release cycles from three weeks to two days - Own Azure DevOps CI/CD across 8 services, moving the team from batched releases to daily production deployments - Set the team's Clean Architecture, DDD and SOLID standards and the code review bar that enforces them; mentor 5 junior and mid-level engineers - Delivered 15+ business-critical modules across dispatch, tracking and billing, using ASP.NET Core, Web API and Angular - Lead architecture decisions, sprint planning and stakeholder demos across Agile squads

Education

Bachelor of Information Technology

2007 – 2010

Whitireia Community Polytechnic, New Zealand
